Sprint 1 Report

Product name : AMAZINO
Team name : Brokers

Actions to stop doing:
- None
  - We were able to work effectively, under bad scheduling conditions
  - We completed more user stories in Sprint 1 than we anticipated

Actions to start doing:
- Meeting more consistently

  - 4th of July fell in Sprint 1, so scheduling became difficult

- Create a definition for done tasks in scrum board

  - Review others code before defining it as done

Actions to keep doing:
- Keep our scrum and development meeting times
- Keep updating scrum boards when we have updates on our site.

Work completed/not completed:
- Complete
  - (8) As a buyer, I need a visible market with listings available for me to choose from.
  - (13) As a developer, I need a database for viewing the whole log of user actions and managing the website traffic.
  - (8) As a seller, I need to register my stuff with some information such as price/simple description. (highest priority)
  - (8) As a user, I need to login/logout to track my purchases and listings.
- Not complete
  - (3) As a dev, I need a local account balance to use and test payment features.

Work completion rate:
- 37 / 40 story points completed
- 92.5%
- 7 days for sprint 1
